

BRAGGZYME®

A New State-of-the-Art Dietary Systemic Enzyme Supplement
from Bragg - 100% Vegetarian/Vegan Formula

What are Enzymes & Systemic Enzymes?

Enzymes are found in every cell of every living plant and animal, including humans. Enzymes are biocatalysts; which means that they either begin a biochemical reaction in the body or cause a reaction to speed up. They are catalysts for virtually every biological and chemical reaction in the body. Enzymes sustain life, without them, we could not exist.

Systemic Enzymes (some of them are also recognized as digestive enzymes) are enzyme supplements used to increase the enzymes throughout your body to assist in restoring the body to health. Should be *taken on an empty stomach*, between meals with purified or distilled water or juice so they can be absorbed into the body.
